

**INTEGRATED MOBILE TAKES TOP HONOR IN BUSINESS FIRST AWARDS FOR  
BEST PLACES TO WORK IN CENTRAL OHIO**

**Columbus, Ohio – November 10, 2006** – Integrated Mobile, Inc. ("the Company") today announced that it was recognized by Business First of Columbus as one of the Best Places to Work in Central Ohio. Integrated Mobile was named #1 in the small business category (businesses with 25-99 employees) and was the top-scoring operation overall in all categories based on independent survey results. The Best Places to Work awards were developed to recognize the top companies in Central Ohio for workers based on workplace satisfaction.

Business First used Quantum Research to gather opinions from workers of Central Ohio companies and 30 companies were ultimately selected – the top ten in each of three workforce categories including small, medium and large companies. The makeup of the top 30 was broad, ranging from the business-services sector to banking, heavy industry, medicine and non-profit segments.

"We are delighted with this recognition and the strong endorsement from our associates," said Integrated Mobile CEO Jay Highley. "This recognition is a reflection of the passion our associates have for our business and serving our clients. We employ an incredibly talented and supportive team of associates who are totally committed to building a great company by maintaining a focus on our number one goal – building long term partnerships with our clients by exceeding their expectations."

Integrated Mobile was founded in 2004 by Greg Pugh, a former IT consulting executive, who observed first hand the administrative chaos and burgeoning costs his corporate clients were experiencing in providing wireless capabilities to their employees. Pugh and his team set out to develop a web-based software and services solution that could help business enterprises gain control of their wireless assets and costs. Today, Integrated Mobile offers a full suite of managed mobility solutions and services and employs more than 50 associates throughout the United States. The Company's revenue base has grown more than 50% quarter over quarter since its founding and now serves over a quarter of the Fortune 1000 companies – all in less than three years of operation.

Integrated Mobile, headquartered in Columbus, OH, is a leading managed wireless services company that uses Six Sigma methodology to globally deliver a proven, end-to-end management solution for the enterprise's entire wireless lifecycle, including device fulfillment and configuration, training, asset management, bill optimization, reporting and 24/7 end-user support. The Integrated Mobile solution helps businesses reduce the chaos in their wireless environment by providing a single point of contact for all wireless services across multiple carriers, improving the overall quality of administrative and end user support — all while reducing their total cost of wireless ownership by 20-40% and simplifying the management of wireless devices and services.
